

# BRING YOUR OWN BREAKFAST TO THE NEXT MSSF WEBINAR PAYROLL ON THE FRONT LINE

## YOUR WEBINAR INVITATION

Following our May Webinars and by popular demand we are going to run a specific Payroll webinar. Always vital, often taken for granted, the payroll function suddenly finds itself on the front-line like never before.

The challenge of ensuring that employees are paid correctly and on time, and that deductions are processed accurately, has probably never been greater. Hardly a week goes by without an update from HMRC; experts provide a constant flow of interpretations; employers are more keen than ever to forecast cash inflows and outflows; and of course employees are rightly eager to understand exactly how their pay has been calculated in light of all the talk about furlough and the like. Meanwhile, payroll systems that were never designed to process anything like the current complexity are creaking at the seams: spreadsheets are back with a vengeance, and with all the consequent risks. The payroll team finds itself uniquely visible, the focus of questions from all directions. Just what is your payroll team going through – and how are you supporting them and engaging with them through these unprecedented times? are you supporting them and engaging with them through these unprecedented times?

If you have any questions, suggestions or would like more information, please do not hesitate to contact us.

We hope you can join us for an informal discussion.

We hope you can join us.
