

MIDLANDS SHARED SERVICES FORUM

Join us for the latest Midlands Shared Services Forum Networking Event, hosted by the Midlands Shared Services Rising Stars

The purpose of the event is to offer attendees a unique opportunity to learn from leaders within SSC's across the Midlands. An opportunity to discuss and obtain insights into their professional achievements and offer a platform to engage in meaningful conversation and knowledge sharing.

During our session we will be joined by inspirational leaders who have an incredible wealth of experience to share with all that attend. To understand their career experience and knowledge sharing, understanding who inspires them, what motivates them, how to drive personal development opportunities and what challenges they face daily, All of this alongside many other topics throughout the evening.

This event has been created by our Rising Stars within SSC's across the Midlands and we hope that you will attend to not only support these individuals but also to bring with you the rising stars from your own teams to make this an incredible networking event for the future of all involved.

We are delighted that Genesee and Wyoming (G&W) have offered to host this in person event in their Birmingham Office on Thursday 23rd November starting at 4pm.

We are looking for volunteer leaders to share your personal and professional insights and for aspiring professionals across the MSSF community to join us for this great evening.

Please can you share this invitation across your shares services and contact tim.hall@hays.com to reserve your place.
